Guides for Merlin Project Express

© 2019 - ProjectWizards GmbH

## Views - as of November 2019

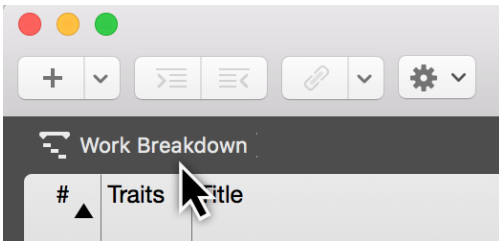

Switching views	1
Resources	1

In Merlin Project Express there are two **views** for viewing the project:

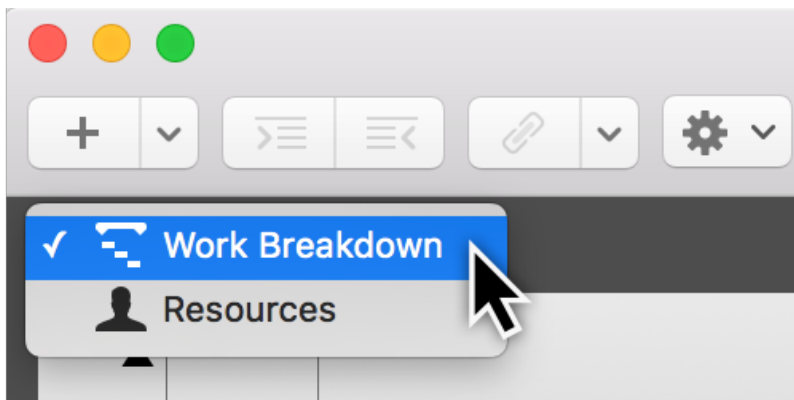

- Workbreakdown
- Resources

The views support the [Dark Mode, available in macOS Mojave or later](#).

Merlin Project Express shows in the upper left corner the name of the current view.

Click **Work Breakdown** for the selection list of all views.

## Switching views

Switch to another view, by selecting another item from the view list.

## Resources

The **Resources** view contains all resources involved and assigned in the project. This gives you an overview of the resources available in the project.

Big birthday

Work Breakdown

Resources
