Gantt labels - as of June 2017

To display labels for activities and milestones on the Gantt, perform a secondary click on any activity in the Gantt chart and select *Content* > *Labels*.

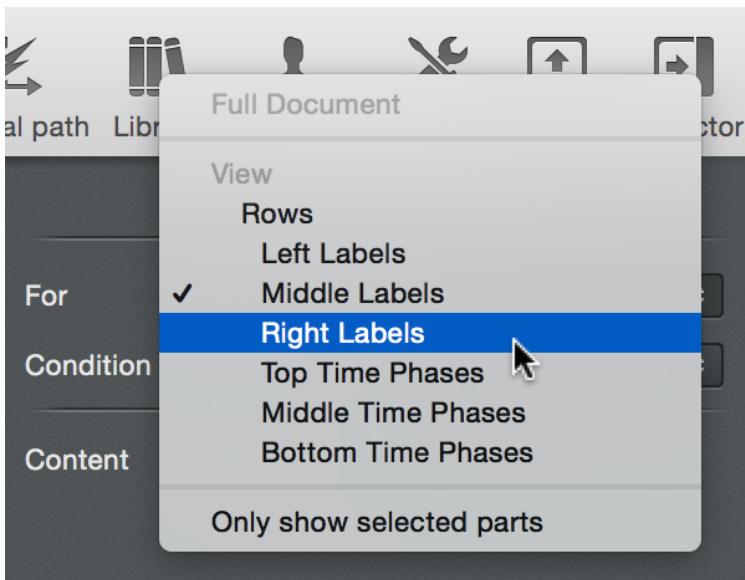

Select *Show all parts* from the *For* drop-down menu.

You can choose from three label options under the drop-down menu *For*.

- Left labels
- Middle labels
- Right labels

Click one of the three label options and check *Content*. As like with all styles and contents, select a condition in the drop-down menu with the same name.

Entry: Content Styles

For: Right Labels

Condition: General

Content: None

In the activated drop-down menu *Content* you will find a huge selection of information which can be displayed in the selected label. In the example, the *Full title* has been assigned to the right label with the assigned resource names displayed in full.

Entry: Content Styles

For: Right Labels

Condition: General

Content: Resources

Format: Full title
