## Save as - Status June 2018

Save as	1
Make 'Save as' visible	1

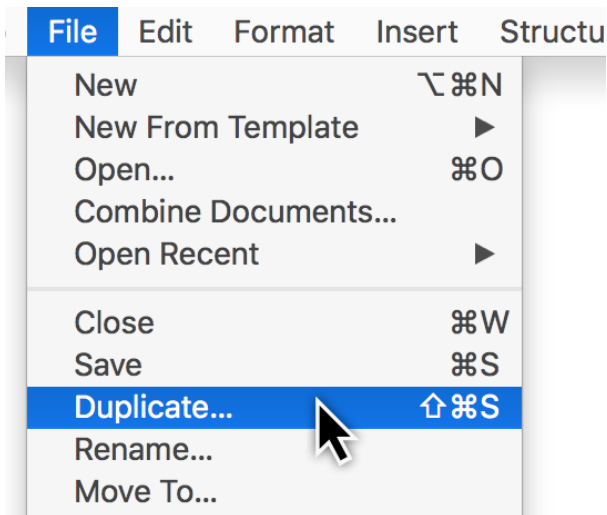

## Save as

In Merlin Project and other applications used **as of OS X 10.9.x**, the option **File > Save As** is no longer visible.

The option **Save As** is replaced by the option **Duplicate**. In principle, it is the same function.

## Make 'Save as' visible

Hold down the **alt** key, **Store > Duplicate** becomes **Store > Save as...**
