

October 2021

Dear Project Manager!

<u>Merlin Project 8</u> has been released and again brings some new features. You will see the most extensive change immediately at the first start:

Dynamic Help

Activated, the dynamic help provides short description texts. Simply point the mouse at a user interface element. The help appears exactly where it is needed, without having to search for it in a comprehensive manual first.

Help texts in 6 languages

Of course, the help texts have been translated into all 6 languages of the app. Whether you speak German, English, Spanish, French, Japanese and Chinese, the localized descriptive texts will make it easier for you to use Merlin Project!

Automated links for Merlin Project documents and content

By extending the <u>API for AppleScript</u> with two new commands, you can now automatically get the URLs of documents and their contents. We have gladly fulfilled this wish of <u>Hook</u> users.

Download Merlin Project 8 Now!

Merlin Project 8 is a free upgrade for all subscribers. New customers are invited to try the software for <u>30 days</u> for free. You need at least macOS Mojave (version 10.14) on your Mac or iOS 14 on your iPad / iPhone.

Would you like a quick tour of Merlin Project? How about a **free demo**? Our US partner Putah Creek Development offers an one-hour demo for Merlin Project each month. You can find all current dates <u>on our website</u>.

If you have any questions or comments about our newsletter, we look forward to <u>your</u> <u>feedback</u>.

Please stay healthy, we will read each other again soon!

Your Merlin Project Team
