

Merlin Project

Dear Project Manager!

December 2019

I'm sure you've read the news already, it was Merlin Project's birthday. The software has been supporting project managers for 15 years now.

[Happy Birthday, Merlin Project](#)

Our little magician has grown up quite a bit! He speaks 6 languages and has travelled a lot. Customers in over 140 countries and different industries use our flexible app to plan, control and monitor their small and large projects.

Are you a true Merlin fan? Tell us which of your favorite projects you have planned with Merlin Project. Share your experience with others. There's a Merlin Project fan box beckoning!

We are also particularly proud to have released [Merlin Project 6](#) on November 5, 2019 - almost 15 years to the day after the first version of our project management software was released. This is a free update for all subscribers.

[New in Merlin Project 6](#)

Dark mode: You decide individually how Merlin Project should look like, dark or light with grey or white inspector.

Start dialog: Merlin Project no longer uses the Finder, but has its own start dialog. New documents, templates, used project files as well as help in the form of short instructions, FAQ, videos and version information are now centrally combined and can be selected directly at startup.

Scenes: On the iPad, Merlin Project now also supports several windows, the so-called scenes, since version 6.

ProjectWizards Newsletter from December 2019

If you haven't already done so, simply download Merlin Project 6 for Mac [from our website](#) or the iOS version for iPad and iPhone [from the AppStore](#).

[New trainings available](#)

The Merlin Project trainers were not idle either. They have already planned for the coming year and put together many new trainings for you. No matter if you prefer public trainings or if you are interested in webinars or other online offers, there is something for everyone.

[ProjectWizards Blog](#)

Do you already know our blog? Besides the news about Merlin Project, our supporters also write there about tips and tricks for using the software. But we also take up project management topics. The last articles cover e.g. [macOS hints](#), [14 great exercises to solve problems as a team](#), [Storytelling for project managers](#), [Prioritizing and visualizing using a four-field matrix](#), and much more.

We will read each other again soon!

Your Merlin Project Team

P.S.: From Dec. 23rd., 2019 to Jan. 1st, 2020 we take a short break to recharge the batteries. We will be back at your disposal again on January 2nd, 2020 - full of energy.
